

CHATUR WEALTH

Making wealth is now easy

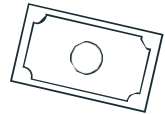

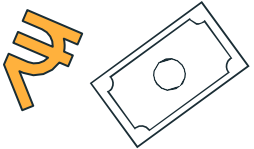

Risk Comes From Not Knowing What You Are Doing

What is Algo-Trading?

Algo-trading (also known as automated trading, or black-box trading) uses a computer program that follows a definite set of instructions (an algorithm) to enter and exit trades depending on the market situations.

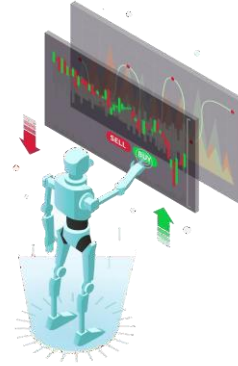

Maximizing Gains With Algo-Trading

Trading Without Computer Programs

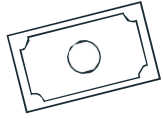

1. Inefficient Trading Operations
2. Emotion-based Decisions
3. No quick Plan-B
4. Prone to Human Error

Trading With Computer Programs

1. Quick & Accurate Order Placement
2. Disciplined Trading - Rule Based
3. Improved Risk Management
4. Enhanced Execution Speed

Eliminating Emotions

People fail to make substantial returns while trading manually, mainly due to:

Fear

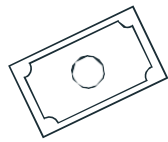

Fear in panic situations causes emotions to take precedence over logic, resulting in the incorrect trading decision

Greed

Greed ultimately leads to losses, even after multiple past successes in the trading industry

Chatur Wealth: An AI-Based Solution

Chatur Wealth is a fintech company that uses Artificial Intelligence to grow the wealth and capital of investors

Consistent Outperformance

Consistently outperformed mutual funds, PMSes, and hedge funds.

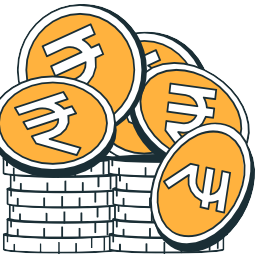

Analyzed & Tested

Back-tested and live-tested series of strategies with proven returns

Returns on Investments

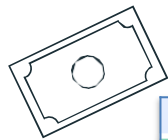

You will see in the following slides that how our returns in the strategies are beating most of best performers globally.

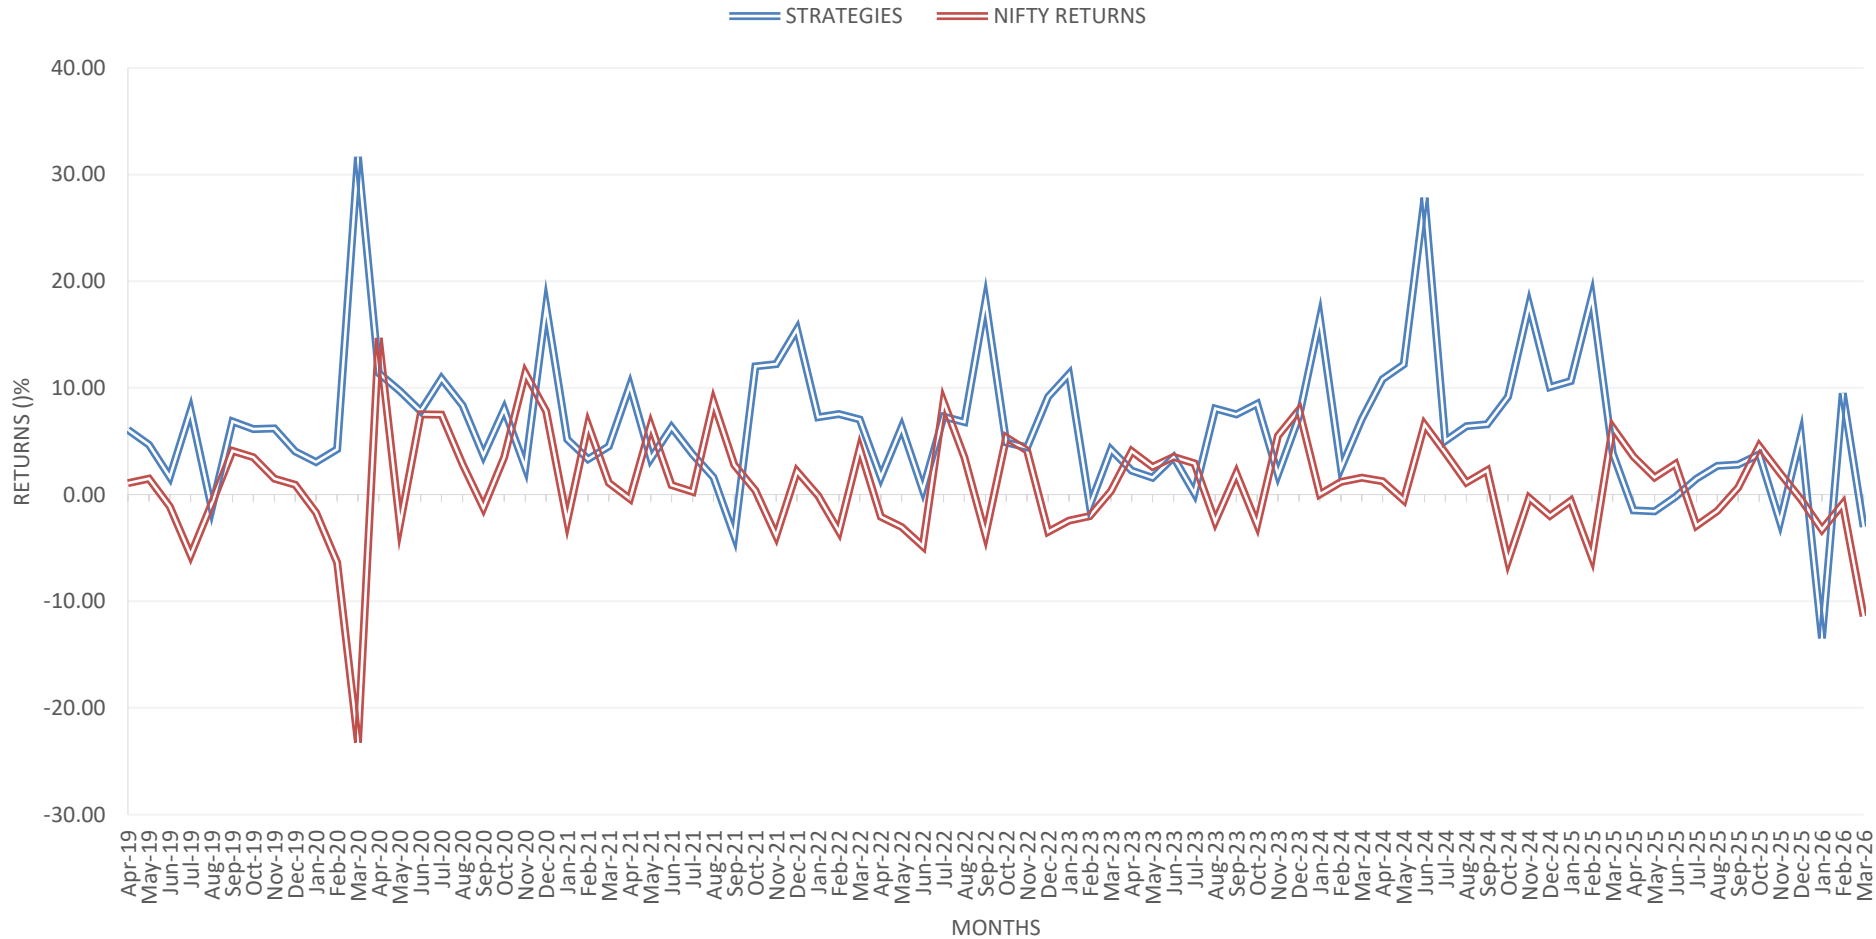

Our Performance Till Now

STRATEGY RETURNS

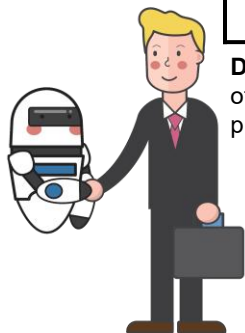

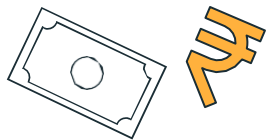

Performance Comparison: Strategies vs Market Indices

STRATEGY RETURNS	Actual Indices Returns	Strategy Returns	Out performance
FY20	-26.38%	63.37%	+89.75%
FY21	56.37%	76.05%	+19.68%
FY22	18.15%	56.85%	+38.70%
FY23	0.40%	45.98%	+45.59%
FY24	26.00%	35.21%	+9.22%
FY25	5.93%	101.47%	+95.54%
FY26	-5.20%	3.39%	+8.59%

Disclaimer: The data compares GROSS returns of the indices with our NET RETURNS, which include brokerage, taxes, and other charges. On a gross-to-gross basis, our returns would be significantly higher than the indices. This comparison is presented to ensure complete transparency.

+

What Makes Us Unique

01

Hurdle Rates

We offer one of the largest hurdle rates (15%) globally

02

Buffer For Mark To Market

By pledging long-term stock portfolios & mutual funds, you can trade at 20% of your initial investment requirement

03

Automatic Trading System

Decisions influenced by emotions like fear or greed are omitted

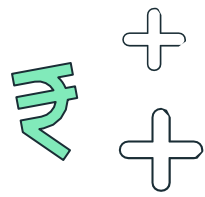

04

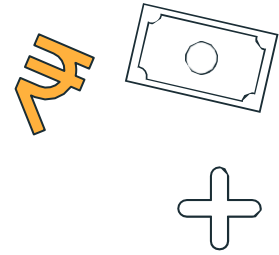

Market Adaptations

Our strategies are growth-tested (live-tested & back-tested) and undergo constant changes with market variations

Capital Requirement

Structure

- Min. Capital - 50 lakhs (Can be increased in multiples of 10 lakhs)
- Open New Demat/Trading Account or use your own existing Demat/Trading Account
- The trades are conducted on your own Account and the funds are held on your own Account.
- No non-algo trades to be executed in the Account to avoid disruptions
- Sharing of Monthly Reports

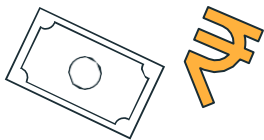

Pledging Option

- Long-term stock portfolios can be pledged in your Account and then, algo-trading can be executed with 20% of the deployed capital which will be used for Mark to Market.

Stop Loss

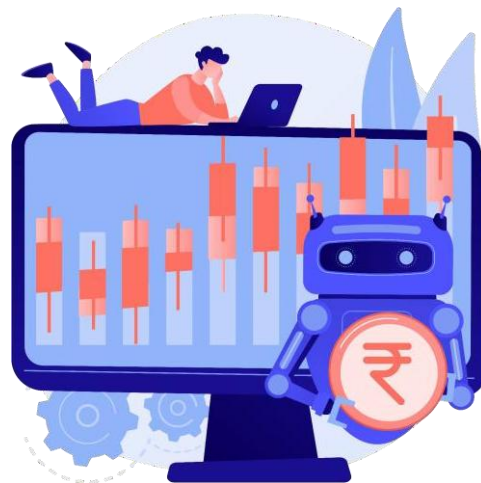

- If the capital dips by 25% of deployed capital, we will pause trading in your Account.

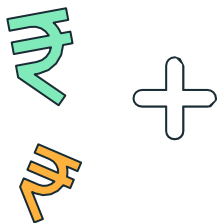

Payment Plan

01	Sign-Up Fee	No Upfront Fee
02	Fee Structure	Flat 20% Commission on profits generated Or 50% Commission on profits generated over 15% hurdle rate
03	Settlement	Quarterly Payment Settlement
